PASTIGLIE FRENO AB.PARTS: QUALITÀ E SICUREZZA.

Le PASTIGLIE FRENO AB.PARTS sono sinonimo di qualità e sicurezza. Grazie ad un accurato bilanciamento di metalli, leganti, fibre, cariche ed abrasivi garantiscono buone prestazioni per tutta la vita utile del prodotto. Il giusto rapporto di ogni costituente della miscela ha permesso di ottenere un prodotto efficiente, sicuro e silenzioso. Tutte le PASTIGLIE FRENO AB.PARTS sono testate secondo le severe normative previste dal regolamento ECER90 a garanzia che le performances offerte siano in linea con quanto previsto per ciascun veicolo.

L'elevata conducibilità termica delle componenti metalliche permette di dissipare il calore rapidamente, permettendo loro di operare a temperature medio-alte garantendo caratteristiche di attrito stabili. Questa importante proprietà si rivela fondamentale anche dal punto di vista dell'intero sistema frenante, il quale risentendo in modo limitato degli effetti di trasmissione termica, opera al massimo delle sue possibilità. Il vasto range di temperature di esercizio permette alle pastiglie di essere utilizzate al di sotto del limite termico, oltre il quale non sarebbe più garantita una frenata efficiente.

Il coefficiente d'attrito pressoché costante, sia ad alte che a basse temperature ambientali garantisce fin dalle prime frenate buone risposte in termini di spazi di frenata e feeling al pedale.

Gli smussi laterali, il taglio centrale e le placchette antivibranti (in gergo "shim"), adottati per tutte le applicazioni ove ne viene richiesto l'impiego, sono elementi caratterizzanti che concorrono a rendere la frenata confortevole e silenziosa.

-  Smussi: nei montaggi che le prevedono, vanno ad agevolare l'inserimento del disco nel punto di accostamento con le pastiglie evitando il contatto diretto con spigoli vivi;
-  Intaglio: laddove le caratteristiche della pastiglia ne indicano la necessità, va a prevenire la formazione di fessurazioni che potrebbero svilupparsi a seguito del calore sviluppato in frenata, contribuendo alla diminuzione della trasmissione di vibrazioni.
-  Placchetta antivibrante: è interposta tra pastiglie e pistoncini (oppure pastiglia-pinza freno a seconda che si abbia una pinza flottante o fissa) in modo tale da assorbire parte delle vibrazioni generate dal contatto tra materiale d'attrito e disco.

Telaio e sospensioni vedranno così smorzato l'effetto di queste onde meccaniche. Grazie a questi piccoli ma importanti accorgimenti, si ha una maggior silenziosità.

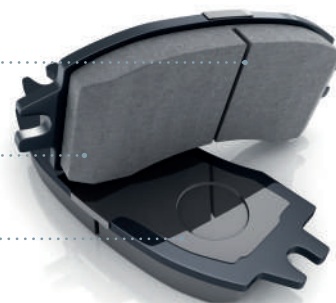

Una frenata reattiva ed un corretto feeling con il pedale del freno sono di primaria importanza, ecco che quindi un'altra proprietà del materiale d'attrito entra in gioco. La bassa compressibilità delle pastiglie permette al guidatore di applicare in modo progressivo la giusta forza al pedale del freno. Se quest'ultimo parametro fosse elevato, a parità di effetto frenante sarebbe richiesta una più intensa forza sul pedale andando incontro ad una maggiore usura ed un prematuro surriscaldamento delle pastiglie stesse, inficiandone la qualità della frenata.

La giusta combinazione di materiali ed accorgimenti geometrici (slot e smussi), permette di prolungare la vita delle pastiglie, ridurre il quantitativo di polvere prodotta e preservare il buono stato del disco freno.

Intaglio

Smussi

Placchetta

AB.PARTS offre anche una gamma di dischi freno, complementare a quella delle pastiglie, che operando in perfetta sinergia con queste consente un perfetto ripristino delle qualità frenanti di origine del veicolo su cui vengono impiegati.

I dischi freno AB.PARTS sono prodotti in stabilimenti che operano con sistemi qualità certificati secondo le normative IATF16949:2016, a garanzia di una costante e stringente attenzione al mantenimento del livello qualitativo richiesto dai prodotti ed al loro mantenimento nel tempo.

La produzione dei dischi freno AB.PARTS parte da un'attenta selezione delle ghise seguendo gli standard dettati dai produttori di veicoli. Durante il processo produttivo vengono costantemente effettuati controlli per valutare che i semilavorati rispettino i requisiti richiesti. Terminato il processo, i dischi sono sottoposti a controlli dimensionali per garantire le corrette misure e planarità del disco. Tutte queste attenzioni hanno lo scopo di garantire un'elevata precisione nelle dimensioni al fine di consentire, in fase di utilizzo, assenza di vibrazioni ed elevata silenziosità nella frenata. Ne conseguono quindi una minore sollecitazione di tutto l'impianto frenante, un elevato confort di marcia ed una maggior durata di tutti gli organi a stretto contatto con il gruppo ruota.

I dischi freno AB.PARTS sono oleati ed inseriti in busta plastica prima dell'inserimento nella confezione, per proteggerli da fenomeni ossidativi. Previa sgrassatura, possono essere messi in opera rapidamente e garantire il grip richiesto dopo l'usuale rodaggio.

AB.PARTS offre un prodotto curato nei minimi dettagli, con un packaging dal design semplice ed elegante. Il robusto imballo, sigillato per salvaguardarne l'integrità, garantisce che il prodotto possa pervenire in perfette condizioni fino all'utilizzatore.

PASTIGLIE E DISCHI FRENO AB.PARTS: qualità e sicurezza!

AB.PARTS BRAKE PADS and DISCS: QUALITY AND SAFETY.

Thanks to an optimized ratio among all mixing components, AB.PARTS BRAKE PADS can grant a safe product, noiseless, with good performances during all product life cycle. All AB.PARTS BRAKE PADS are tested accordingly strict standards defined by the European Regulation ECER90, which guarantee that performances are in line with prescriptions for each vehicle.

The high thermal conductivity of metallic components allows to dissipate heat more quickly, so brake pads can work at medium-high temperatures keeping steady friction parameters.

Sideward chamfers, cutting and anti-vibration shims, provided for applications which their use is required, help to make braking comfortable and safe.

The friction material has a low compressibility: feature that allows the driver to progressively apply the right force to the brake pedal, guaranteeing good braking quality.

The combination of all these features makes AB.PARTS BRAKE PADS versatile as they can adapt to different driving styles.

AB.PARTS brake discs range have been developed with the same milestones of brake pads: an affordable and sturdy product, manufactured in factories IATF16949:2016 approved, that can offer a braking experience with absence of vibrations and low noise level.

AB.PARTS supply products with attention to the smallest details, in a simple and styling packaging. The sturdy box is sealed to ensure its integrity up to the final user.

AB.PARTS BRAKE PADS and DISCS: quality and safety.

PLAQUETTES et DISQUES FREINS AB.PARTS : QUALITÉ ET SÉCURITÉ.

Grâce à un mélange homogène de composants de qualité, les PLAQUETTES FREINS AB.PARTS peuvent assurer un produit sûr et silencieux avec des bonnes performances pour toute la durée de vie utile du produit. Toutes les PLAQUETTES FREINS AB.PARTS sont testées selon les normes les plus sévères du règlement ECER90 qui garantit que les performances proposées correspondent aux exigences des constructeurs. Les composants, métalliques assurent une très bonne dispersion de la chaleur et ainsi un coefficient de friction linéaire jusqu'à des températures très élevées.

Les chanfreins latéraux, la rainure centrale et les plaques anti-vibration permettent un freinage confortable et silencieux.

Les matériaux de friction particulièrement bien dosé, mélangé et comprimé permet une bonne qualité de freinage malgré un faible effort sur la pédale de frein.

Ces caractéristiques rigoureuses permettent aux PLAQUETTES FREINS AB.PARTS de s'adapter à tous les styles de conduite, quelque soit leur température d'utilisation, elles conservent une efficacité optimale.

Les DISQUES DE FREIN AB.PARTS ont été développés avec les mêmes caractéristiques de base de les plaquettes: des produits fiables, fabriqués en usines accréditées IATF16949:2016, qu'ils peuvent offrir une expérience de freinage sans vibration et silencieux.

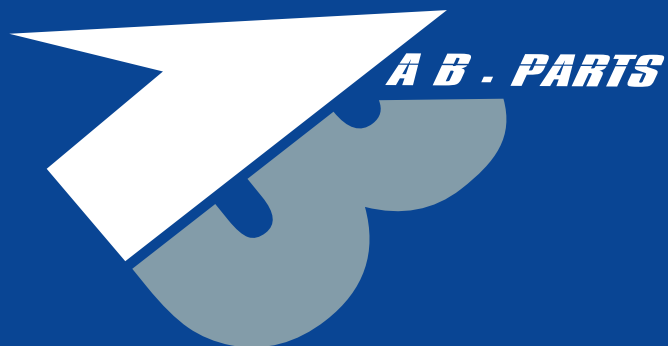

Notre produit est emballé avec un design simple, élégant et robuste. De plus un scellement de la boîte vous garantit la qualité et l'intégrité du produit.

PLAQUETTES et DISQUES FREINS AB.PARTS: qualité et sécurité.
